FDIC Foreclosure Prevention Initiative

The Federal Deposit Insurance Corporation (FDIC) has released a free tool kit of information to help you know who to contact and what documents you need to have available to apply for a loan modification that could save your home from foreclosure. This tool kit also describes the warning signs of potential foreclosure "rescue" scams and how consumers, community stakeholders, and bankers can report scammers and prevent fraud. You can access the free tool kit at <http://www.FDIC.gov/foreclosureprevention>.
